***Be encouraged to pray and know that God loves to hear and respond.***  
 Recently, I cried bitterly as I prayed about the vastness of coronavirus across the world, which can frighten & overwhelm us. I didn’t exactly think what good will my one prayer do, but I just felt so insignificant in the scheme of things. As I cried, I felt God get hold of me and whisper “why do you think I won’t act on your one prayer? Do I need to hear a million voices, or might I change things because *you* asked?” That made me realise how dare I think God couldn’t/wouldn’t act on just one prayer (from any one of us!), He could heal/change the world as a result of one prayer if He chooses! God is listening for your voice. Debbie Dean.
